

The research is clear and trillions of white blood cells agree that Transfer Point's Glucan #300 tops them all.

Glucan #300, manufactured by A. J. Lanigan shown superior to all compounds tested

Compounds requiring over 8X the dose of Glucan #300 for same immune effect

- PSK Krestin by Kureha Corp.
- MaitakeGold 404® by Tradeworks Group, Inc.
- Beta 1,3/1,6 Glucan by NOW®

Compounds requiring over 32X the dose of Glucan #300 for same immune effect

- Epicor™ by Diamond V
- Immuto!® by Biotec ASA
- RM-10™ by Garden of Life

Compounds requiring over 64X the dose of Glucan #300 for same immune effect

- BioBran® by Daiwa Pharmaceutical Co., Ltd.
- Manapol® by Carrington Labs
- Immune Builder® by Mushroom Science
- Senseiro by Kyowa Engineering, Japan
- Immune Renew™ by NOW®
- Manapol® Plus MaitakeGold 404® by Carrington Labs
- Wolfberry Powder by Rich Nature™ Nutraceutical Labs
- Transfer Factor™ by Source Naturals®
- Glucagel™ by GraceLinc Ltd.
- Beta Glucan 1,3 Glucans by Solgar®
- Immune Factors™ by Andrew Lessman
- Immunity Booster™ by Twinlab®
- MC-Glucan by Macrocare Tech., Ltd., Korea
- Oat Beta Glucan 1000™ by Dr. David Wheeler
- Beta Sweet-Southeast Asia
- Beta 1,3 Glucan by Vitamin World
- BETAMax by Chisolm Biological Labs

Compounds requiring over 160X the dose of Glucan #300 for same immune effect

- MacroForce™ by ImmuDyne, Inc.
- Maximum Beta Glucan™ by Young Again Nutrients
- Advanced Ambrotose™ 375 by Mannatech, Inc.
- AHCC ImmPOWER™ (Active Hexose Correlated Compound) by American BioSciences, Inc.
- Vitamin C by Cognis
- NSC 100™ by Nutritional Supply Corporation
- Baker's Yeast by Fleischman's®
- ViscoFiber™ by Cevena
- Cell Forte/IP6/Inositol by Enzymatic Therapy
- ASTRAGALUS by SmartBasic
- Advanced Colostrom Plus™ by Symbiotics

These products produced less effect than saline, the negative control

- Vitamin C by AIDP, Inc.
- Ambrotose by Mannatech, Inc.
- BioChoice® Immune 26 by Legacy for Life, Inc.
- 4Life® Transfer Factor™ by 4Life Research
- ACTIVAlloe™ by Aloecorp, Inc.

IF you are looking for an immune support supplement, now is the time to discover Transfer Point's Beta glucan. Continuously and thoroughly tested for safety and efficacy by leading universities and teaching hospitals.

The supplements listed at left all claim to benefit the immune system. Each was third party tested and not one single supplement evaluated was close to matching the immune enhancing capabilities of our Beta glucan.

We don't just claim Transfer Point's Beta glucan can enhance the immune response, we prove it.

"Glucan #300 showed a broad range of action. Glucan #300 was the biologically most relevant immunomodulator."

—DR. VACLAV VETVICKA, PHD, UNIVERSITY OF LOUISVILLE

"When I share Beta-1,3D Glucan with my patients, I know they have a safe and effective product that meets their healthcare needs."—KALYANI M. KUMAR, M.D., F.A.C.O.G., PRESIDENT AND CHIEF MEDICAL OFFICER, AMERICAN WELLNESS ALLIANCE, RICHMOND, VIRGINIA.

"After 30 years of dental surgery, I found a biological response modifier that I use along with the standard of care to help deal with antibiotic resistance, post operative complications, allergic reactions and other complex issues."

—JOHN L. TATE, DDS, SPARTANBURG, SC
